

# WC 4/5 CUP MACHINE

Winpak Lanes WC 4/5 horizontal in-line fill/seal packaging machines are innovative cup machines designed to run preformed rectangular cups for a wide variety of applications. Winpak offers a selection of models and options to produce maximum outputs from 320 to 700 packages per minute. With the capability to run a wide selection of products and packaging sizes, WC 4/5 machines are the perfect choice for nearly any product or application.

- Multiple machine models and options are available to match production needs and/or a wide variety of product or applications.
- Highly reliable, small footprint machines
- Robust construction with NEMA 4X/IP65 components and enclosures
- Advanced control system and color touch screen operator interface
- Individual PID temperature controls
- Typical product applications include dips, condiments, sauces, dressings, margarine, jams, jellies, syrups, and many other liquid and semi-viscous products.
