

WVF CUP MACHINE

Winpak Lanes Vari-Fill® horizontal in-line fill/seal packaging machines are innovative cup machines designed to run preformed round cups for a wide variety of applications.

Winpak offers a selection of models available with maximum outputs from 40 to 1,600 packages per minute. With the capability to run a wide selection of products and packaging sizes, Vari-Fill® machines are the perfect choice for nearly any product or application.

- Multiple machine models and options are available to match production needs and/or a wide variety of product applications
- Highly reliable, small footprint machines
- Stainless steel construction with NEMA 4X/IP65 components and enclosures
- Advanced control system and color touch screen operator interface
- Fully automated robotic case packing solutions available.
- Individual PID temperature controls.
- Typical product applications include dips, condiments, sauces, dressings, margarine, applesauce, yogurt, pudding, cream cheese, sour cream, syrups, and many other liquid and semi-viscous products.
